KEVIN KÜHL

Computer Engineering Student with an Emphasis in Data Science

Telephone	**+55 (27) 98177 1111**
E-mail	**kevin_kuhl@usp.br**
LinkedIn	**goo.gl/Z9Di2f**
Address	**São Carlos, SP**
Graduation	**Dez 2022**

Profile & Interests

A computer engineering student passionate about technology, interested in innovative projects that align scientific and critical thinking. Observant, attentive to details and excited about the idea of learning new things.

Experience

Undergraduate Researcher, Institute of Mathematical and Computer Sciences (University of São Paulo) 2018-Present

- Data analysis of complex networks by sparse recovery techniques
- Developed at the Department of Applied Mathematics and Statistics

Summer Intern - XP Investments Jul 2019

- Developed a complementary private pension funds portfolio optimization system based on the taxes payed (C#)

Visiting Researcher, Imperial College London Jan/Feb 2019

- Researcher in the Dynamic Systems Group of the Mathematics Department of Imperial College London

Undergraduate Researcher, São Carlos Institute of Physics (University of São Paulo) 2017-2019

- Research scholarship from National Council for Scientific and Technological Development
- Project focused on the development of a laser system to recover and treat metallic surfaces
- Responsible for creating a software capable of recognizing objects and cracks on metal surfaces, utilizing computer vision
- Software developed in Python and C++

Education

Bachelor's Degree in Computer Engineering with an Emphasis in Data Science, University of São Paulo 2017-Present
SÃO CARLOS, BRAZIL

Diplôme d'ingénieur, Télécom Paris, Institut Polytechnique de Paris Starting Sep/2020-Sep/2022
PALAISEAU, FRANCE

Symposium on Machine Learning and Dynamical Systems, Imperial College London 2019

Automated Machine Learning For Data Science School, University of Sao Paulo 2018
SÃO CARLOS, BRAZIL

Associate's Degree in Electric and Electronic Technology, Federal Institute of Espírito Santo 2011-2014
VITÓRIA, BRAZIL

Stat 2.2X: Introduction to Statistics - Probability, UC Berkeley 2013

Awards and Titles

Silver Medal on Latin American University Physics Olympiad 2018

Gold Medal on Brazilian Physics Olympiad for Public Schools 2014

Extracurricular Activities

Programmer, Zenith Aerospace 2017-2018

- Extracurricular group based on building stratospheric balloons and CubeSats used to test experiments in environments with a high level of radiation
- Zenith Aerospace is inserted on Garatea L, the first deep space brazilian mission
- Developed systems to monitor power supply and save energy in stratospheric balloons
- Systems developed in C++ implemented at ATmega Microcontroller
